Scantronic is a leading brand of Cooper Security Ltd, part of Cooper Industries, employing over 28,000 people at more than 100 manufacturing sites around the world.

Scantronic manufactures security equipment for all types of commercial and domestic premises. The range is comprehensive, offering every type of solution from multizone hard-wired and wirefree systems, to digital and voice communicators, detectors and social alarms. Installers trust us to deliver cost effective products with the highest quality of field and support services ensuring you receive the best and most reliable systems to secure you and your premises.

Features

- Easy to use and install.
- Uses a standard telephone socket and mains power connection.
- Can operate without a phone – using the auto answer facility and built in loudspeaker.
- Internal battery recharges automatically and provides up to 36 hours of standby power.
- Optional message recording facility. Allows a message of up to 20 seconds to be recorded and replayed in the event of an emergency via a plug in telephone. (Available on 02020UK-03 only).
- Can be programmed remotely from a telephone or control centre.
- Call-cancel button on front panel alerts the alarm receiving centre that help has arrived.
- Optional alarm retransmit after 15mins if call-cancel button hasn't been pressed.
- Pendant transmitter included.
- Multi-format signalling ensures compatibility with most types of control centre equipment, and the ability to dial friends and family.

Variations

- 02025UK-00 complete with 4601UK-50 pendant and plug in power supply.
02025UK-03 complete with 4601UK-50 pendant, speech chip and relay output and plug in power supply.
